Introduction

((contactless.io

No more collecting physical business cards or losing out on valuable visitor contact details.

Build your client database by digitally recording all your encounters with visitors at your booth.

Collect the data of all your visitors, have a record of daily encounters and export your database after the event.

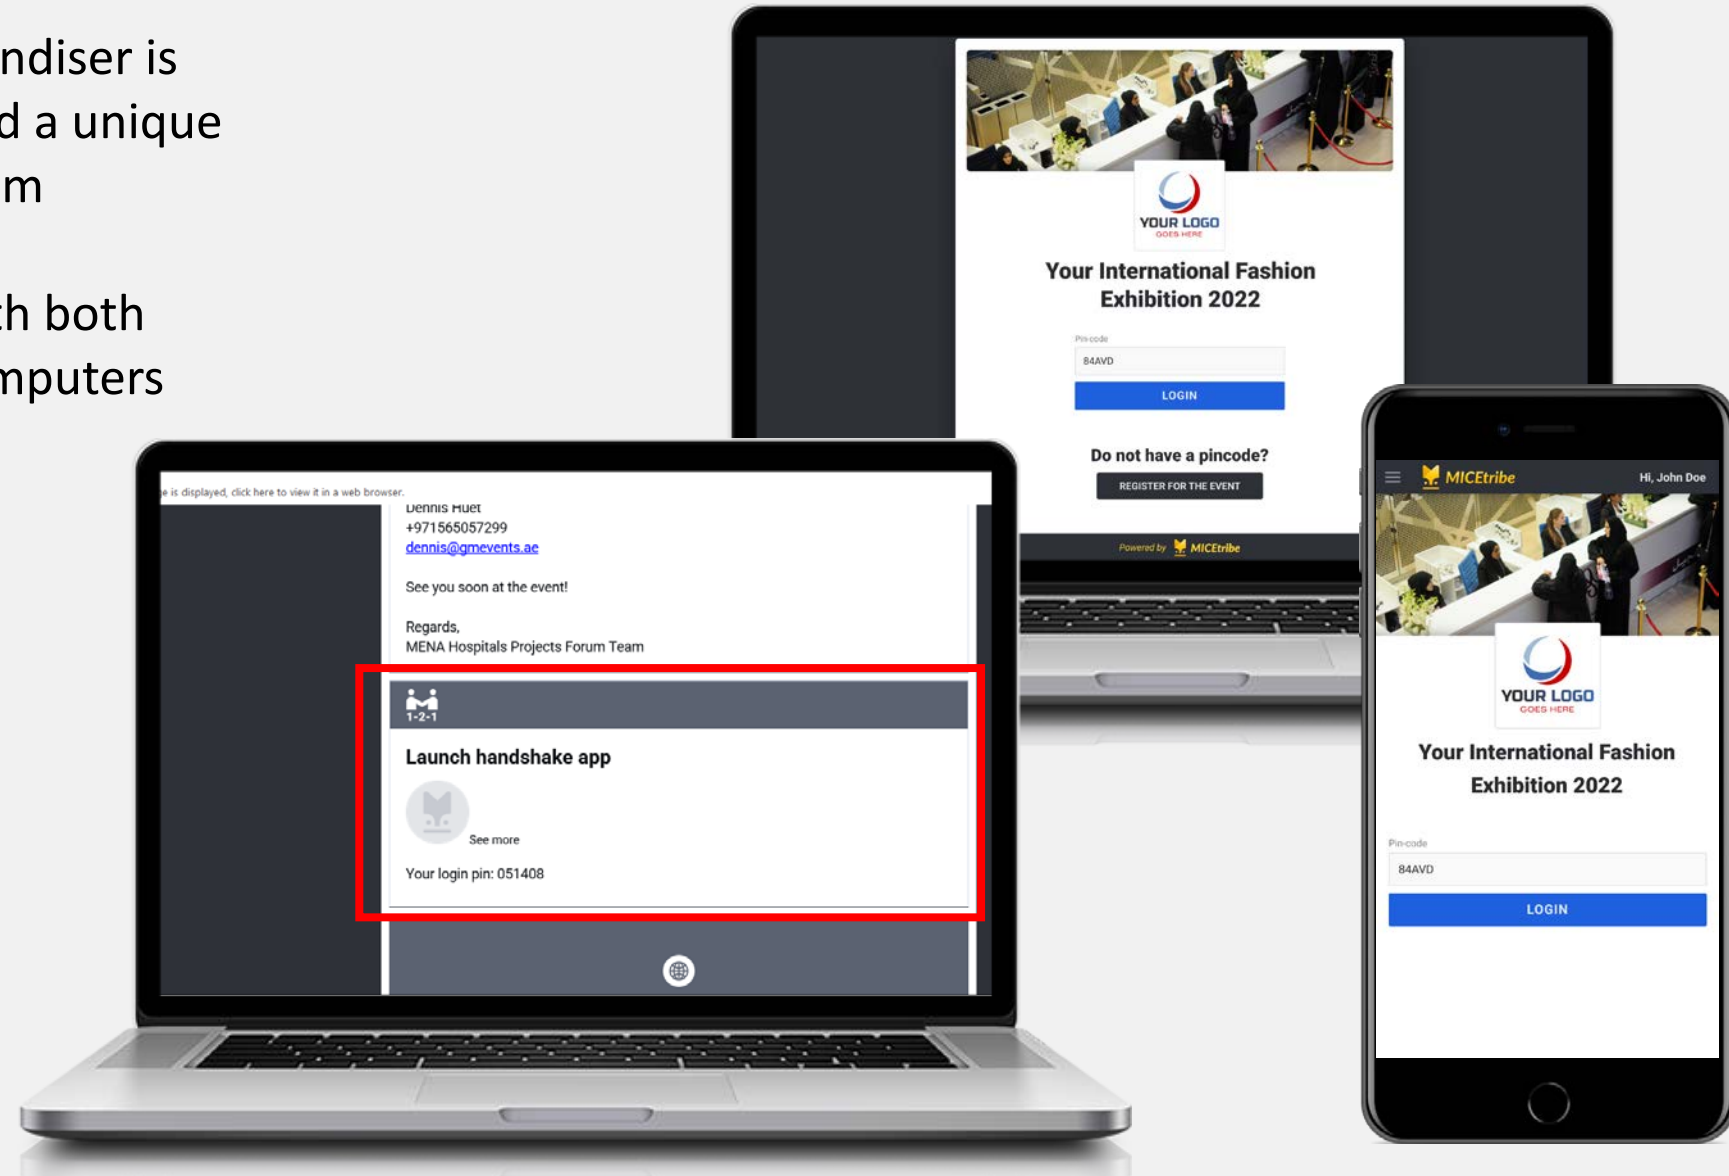

Step 1

((contactless.io

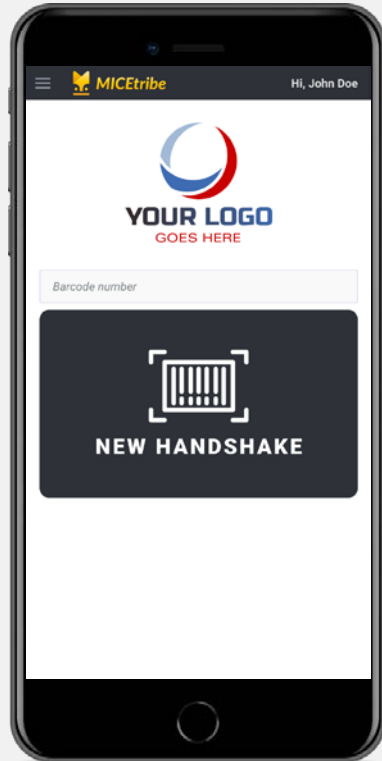

You as an Exhibitor / Merchandiser is then provided with a URL and a unique PIN CODE to access the system

The system is compatible with both smart phones or desktop computers

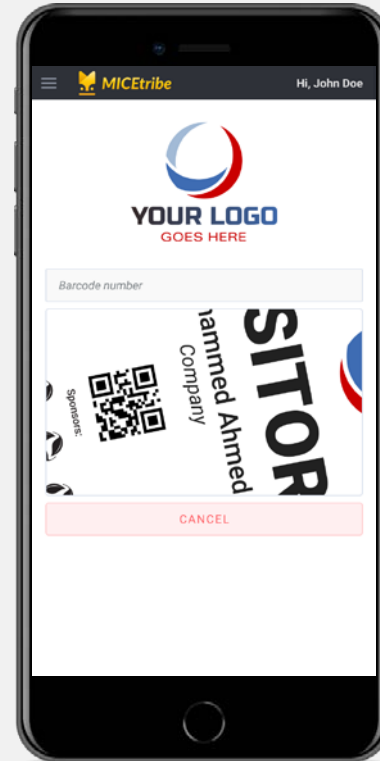

Step 2

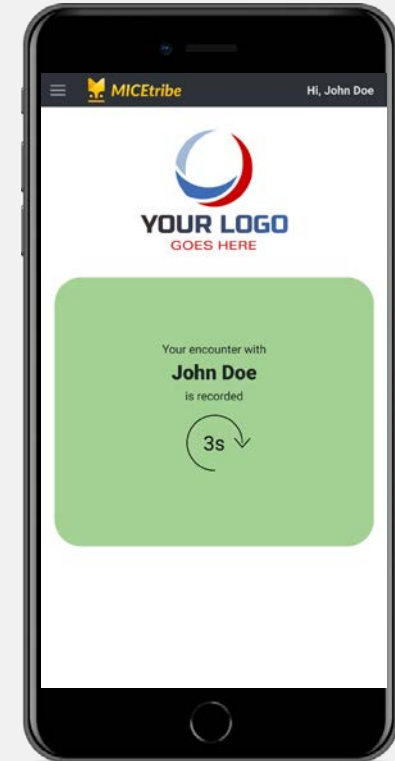

((contactless.10

You as an Exhibitor / Merchandiser can click on “New Handshake” to start the QR code scanning feature

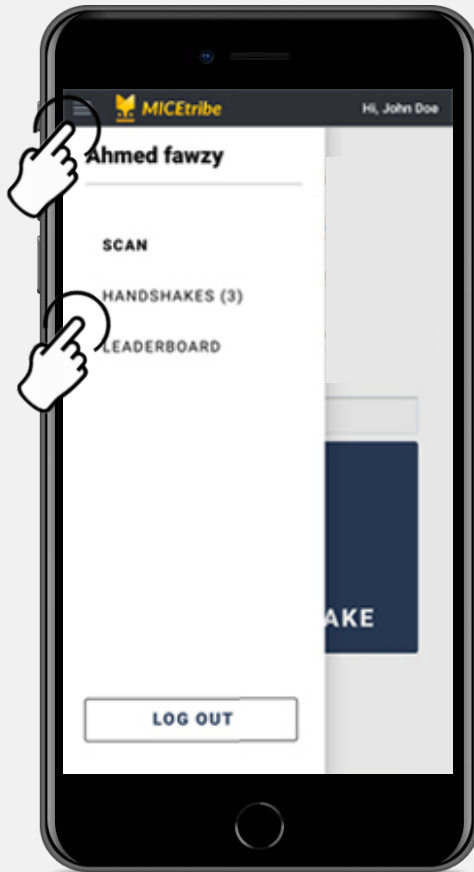

You as an Exhibitor then scans the QR code on the visitors badge to collect the contact details

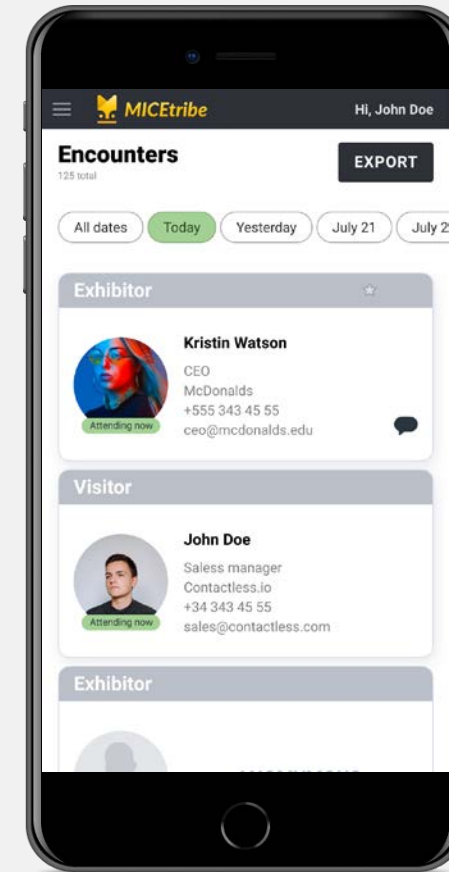

An on screen confirmation is displayed to you for two seconds before redirecting back to main screen

Step 3

To review the encounters you can click on the “Handshakes” button

A view of all encounters is displayed to you in the order of scanning

Step 4

((contactless.io

You as an Exhibitor / Merchandiser can access the Encounters view from both Smartphones or Desktop to export the data they collected during the event
